
(a)
estimated (each member)
ensemble mean (100 members)
true forced response
Global mean
Year
(b)
median = 0.10
ensemble mean = 0.02
error variance = forced variance
Number of members
Normalized MSE of the forced response
(c)
estimated (each member)
estimated, median
true
Decay time (years)
Mode (sorted by |eigenvalue|)
(d)
estimated (each member)
true slow pattern (median |cos| = 1.00)
Loading (unit norm)
